MGBS 132 KV RECEIVING SUBSTATION (RSS) ENERGISED

L&T Metro Rail (Hyderabad) Limited is happy to announce that the 132/33/25 kV Receiving Substation (RSS) at Mahatma Gandhi Bus Stand (MGBS) is energized today by Mr. KVB. Reddy, MD & CEO, L&T Metro Rail (Hyderabad) Limited.

This is a major source for power supply for the Hyderabad Metro Rail Project. MGBS RSS is one of the four substations catering to the power requirements of Hyderabad Metro Rail Project.

The first two receiving substations of Hyderabad Metro Rail Project are located at Uppal and Miyapur depots respectively and are in service for providing power for the operations of Hyderabad Metro Rail sections. Fourth such substation is located at Yousufguda and is in advance stage of completion. All the three corridors of Metro Rail project have the redundant power supply sources through any two of the four receiving substations which are in turn fed from TSTRANSCO grid.

MGBS RSS is equipped with 132 kV Gas Insulated Switchgear (GIS) which receives power from TSTRANSCO's 220/132/33 kV Grid Substation situated in Imliban.

Speaking on the occasion Mr. KVB Reddy, stated “This is an important milestone for the project. MGBS RSS will also supply power to the upcoming Transit Oriented Development (TOD) Hyderabad Next facilities at Erramanzil and Moosarambhag. The MGBS RSS has the state of the art facilities like SCADA (Supervisory Control and Data Acquisition) Control and Fibre Optic Connectivity to Hyderabad Metro Rail's Operation Control Centre (OCC) located in Uppal for remote control and monitoring.”

Mr. KVB Reddy, MD & CEO, LTMRL, Mr. M.P. Naidu, Project Director, LTMRL and Mr. Anil Kumar Saini, COO, Railway Systems, LTMRL, Mr. Vivekananda, CE, TSTRANSCO, Mr. Vohra, SE, TSTRANSCO, Mr. Sree Ram Mohan, SE Operations, TSSPDCL and other officials.
